

Fall Into Game

學生：1121553 翁榆涵

目錄

01. 關卡介紹

02. 技術特點

03. 結語

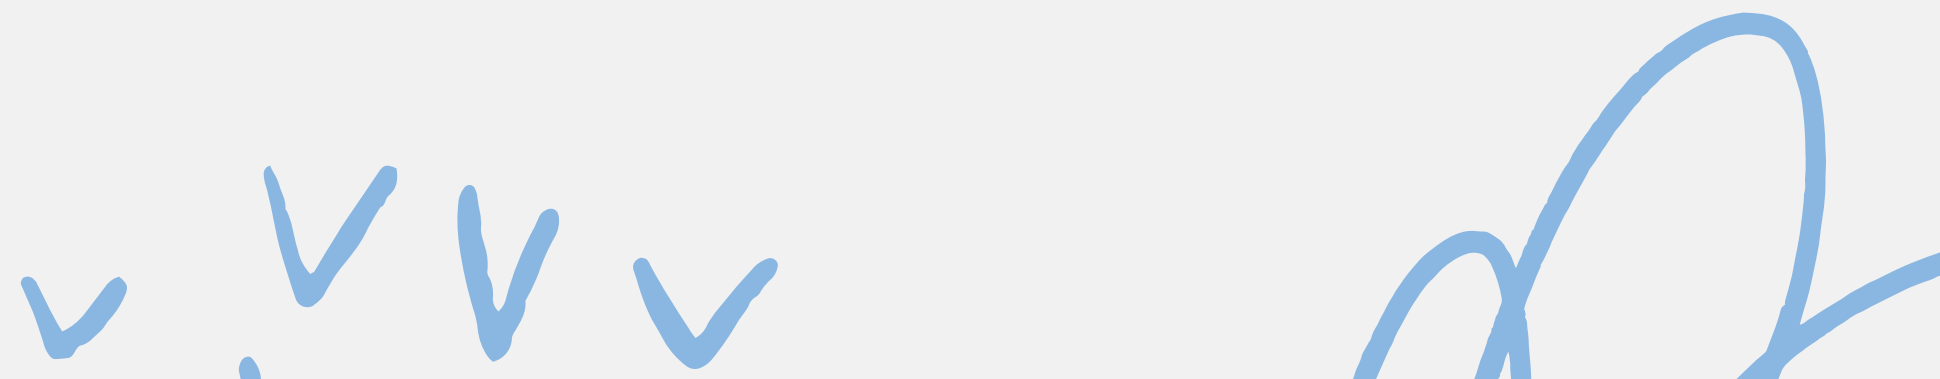

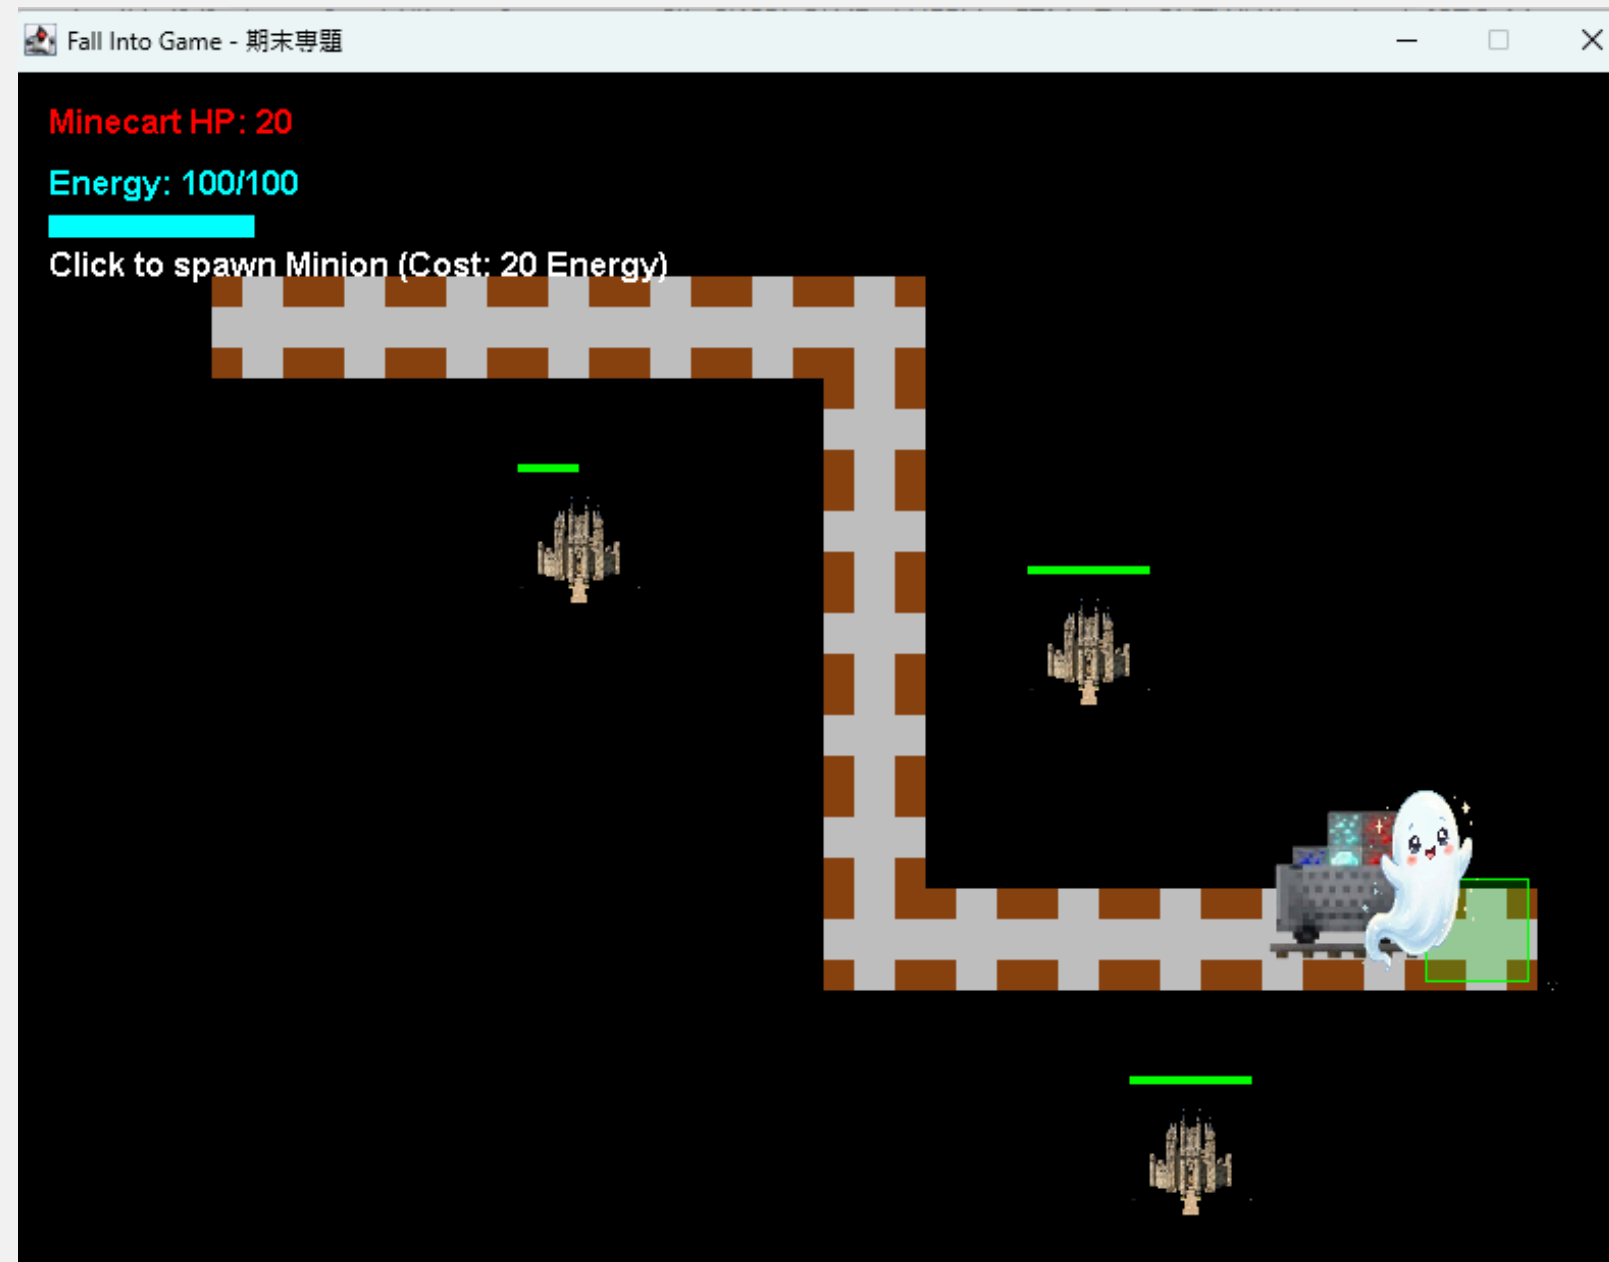

第一關-資源收集

操作方向鍵移動幽靈角色，收集鐵塊資源，
用來鋪鐵道讓礦車抵達右下角綠色框框成功
通關

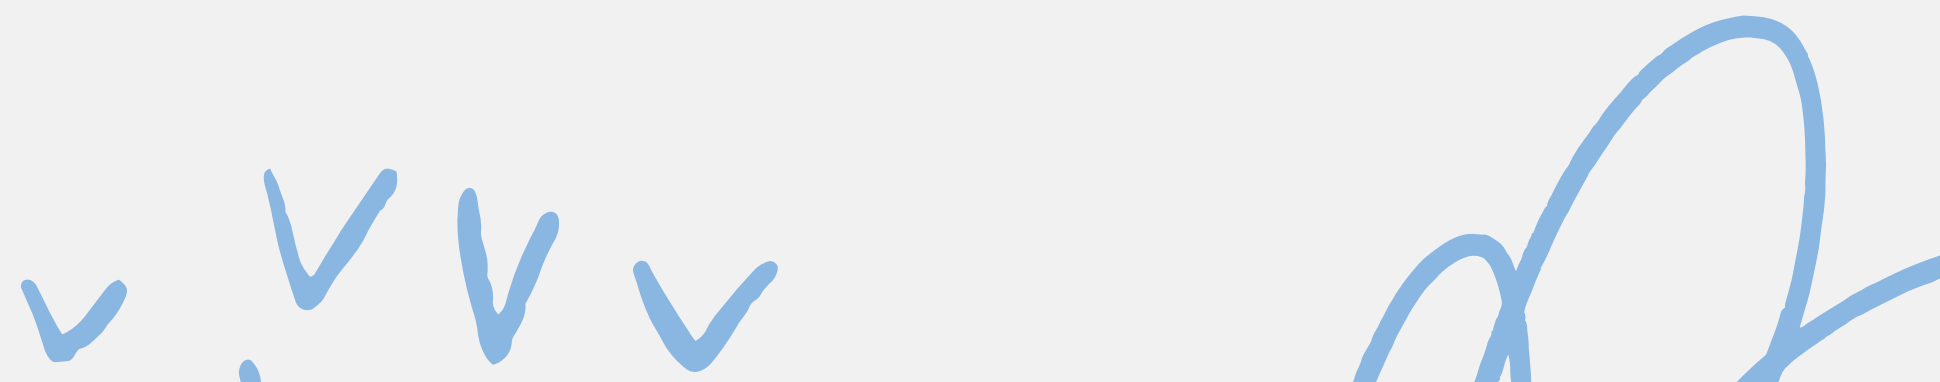

第二關-塔防護衛

點擊滑鼠消耗能量來召喚小兵當肉盾，避免被防禦塔打死，順利抵達右下角綠色框框目的地

第三關-最終決戰

躲避魔王龍攻擊的同時想辦法讓幽靈靠近城堡，按下空白鍵讓兩者連線，利用城堡擊殺魔王，取得勝利!!

技術特點一 串聯音樂串流

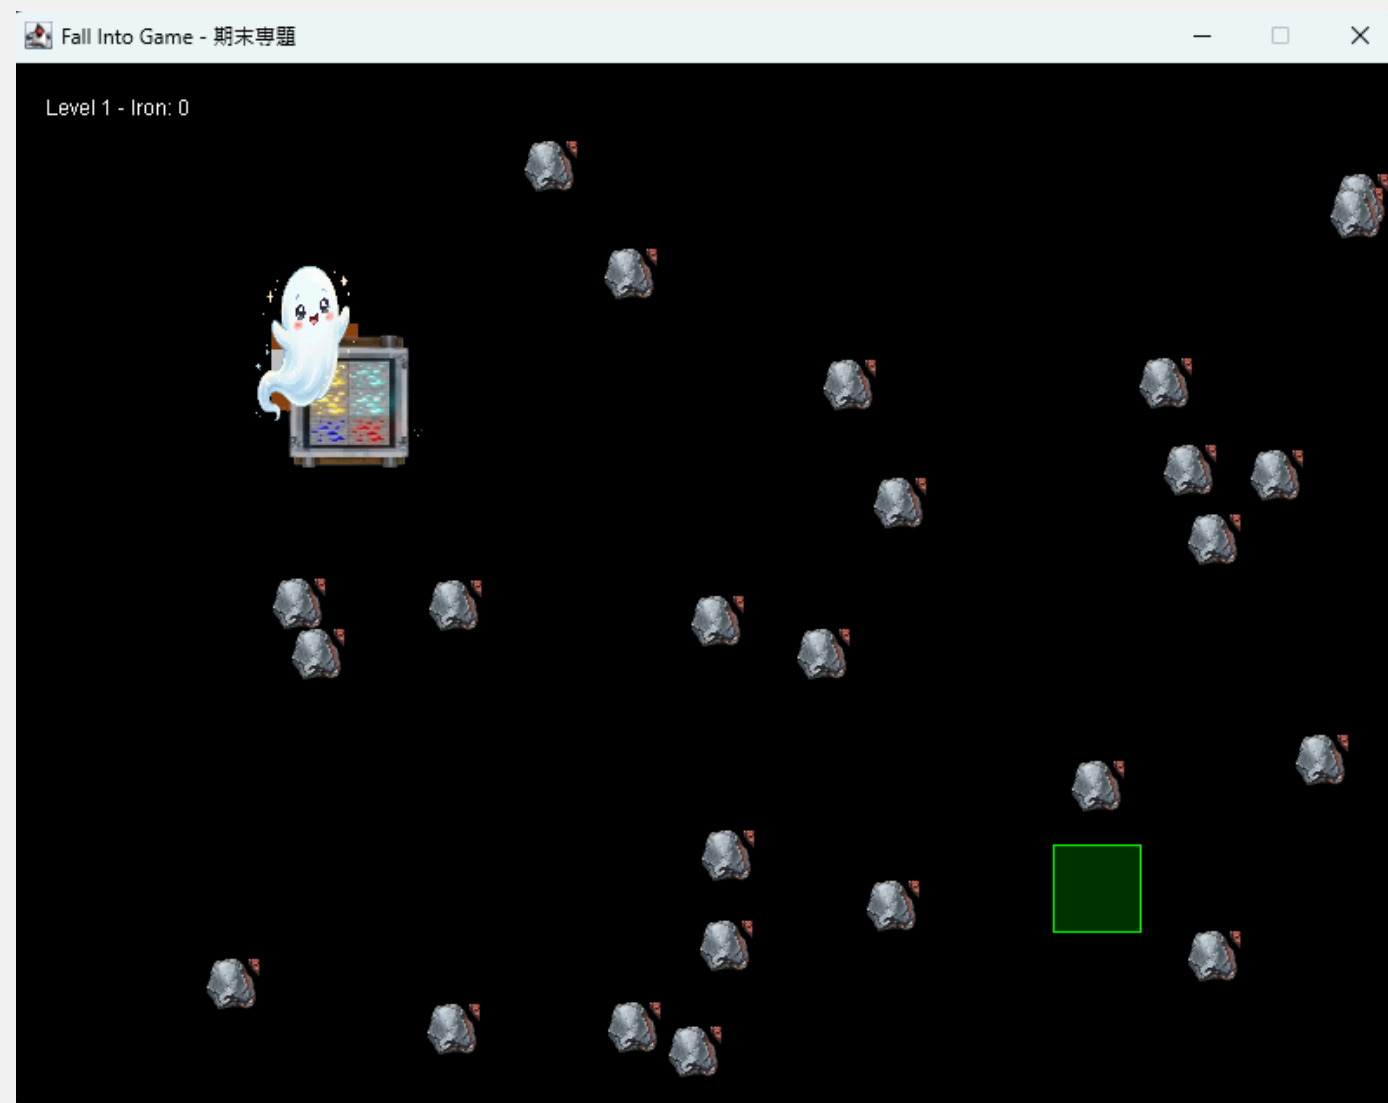

串聯spotify的播放清單，執行的同時會打開指定撥放清單，讓玩家可以有更完整的遊戲體驗

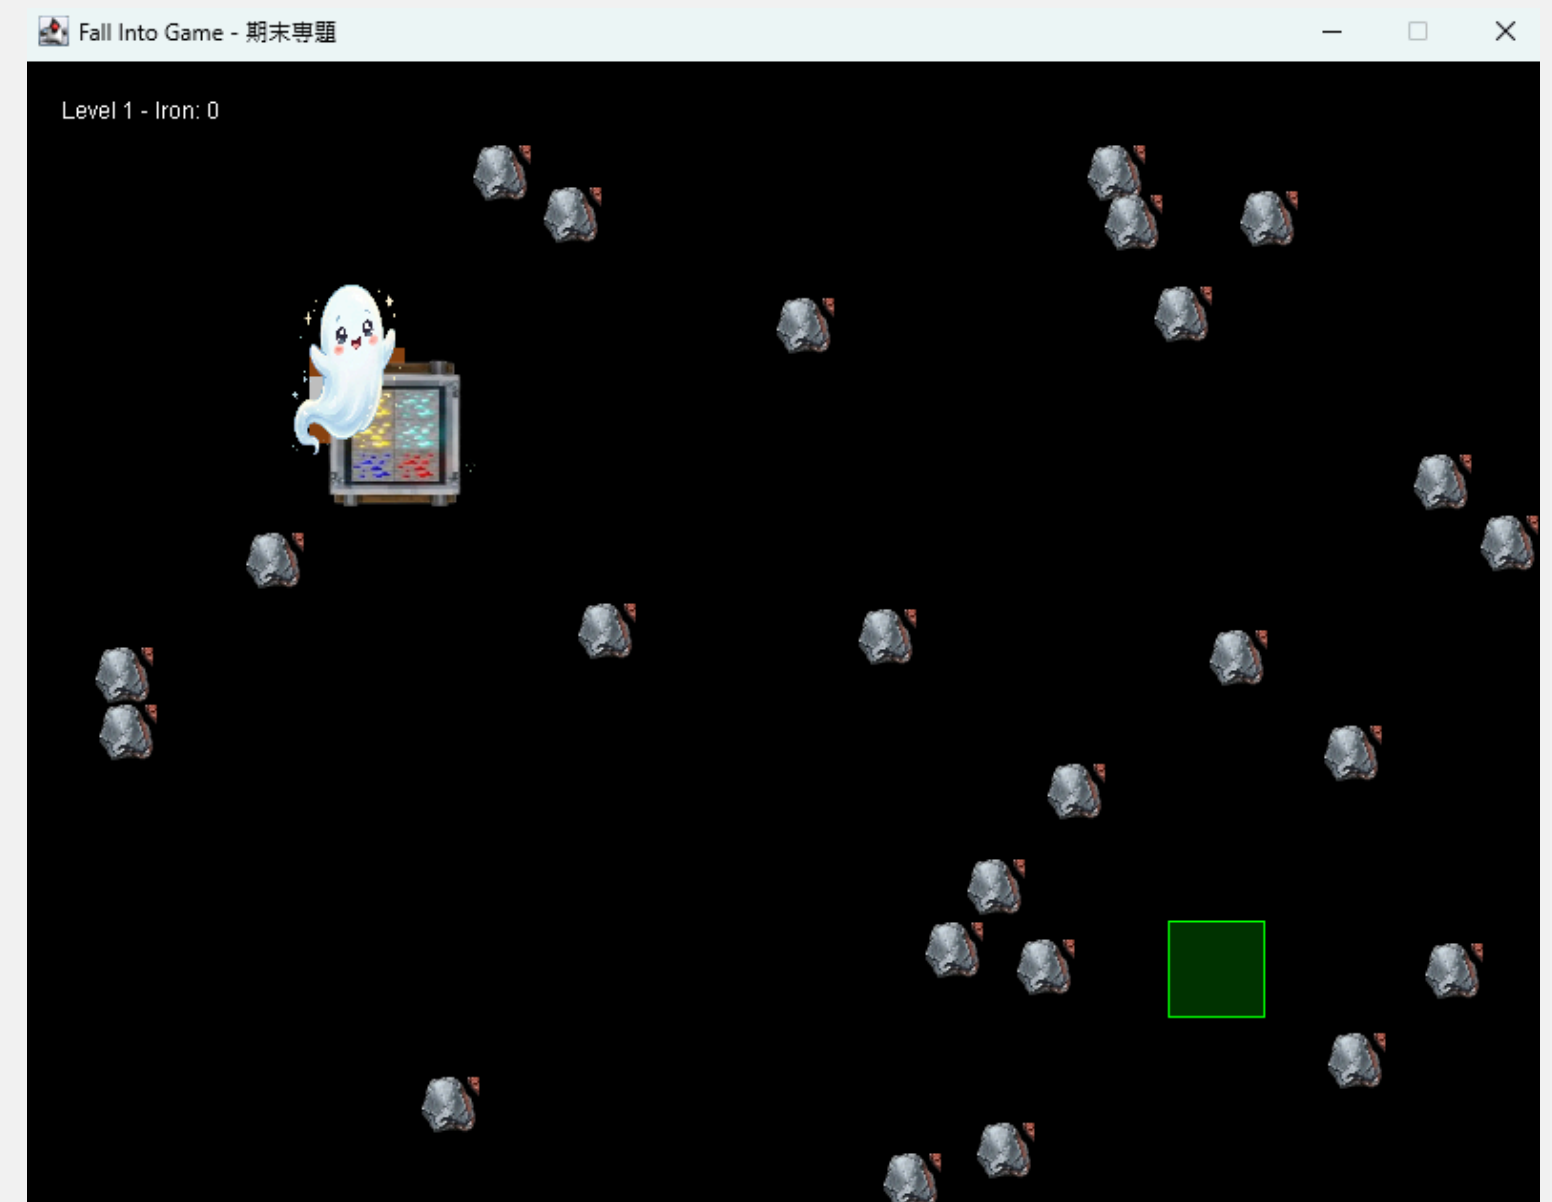

```
SpotifyManager.java X
D: > java_final > SpotifyManager.java
1  import java.awt.Desktop;
2  import java.net.URI;
3
4  public class SpotifyManager {
5      public static void openPlaylist() {
6          try {
7              // 替換成你的 Spotify 歌單連結 (URI 格式可以直接喚醒 Spotify App)
8              // 例如這是 Spotify 官方的 Gaming 歌單
9              URI uri = new URI("https://open.spotify.com/playlist/4SkXUOGMKkdEE2vM43Z60z?si=REzs28PnRnGB5x0QbRbLQA");
10
11              if (Desktop.isDesktopSupported() && Desktop.getDesktop().isSupported(Desktop.Action.BROWSE)) {
12                  Desktop.getDesktop().browse(uri);
13                  System.out.println("已在背景開啟 Spotify!");
14              }
15          } catch (Exception e) {
16              System.out.println("無法開啟 Spotify 歌單。");
17          }
18      }
19  }
```

技術特點二 隨機地形生成

每次進入第一關時，系統會自動在畫面上生成不重複的鐵礦，但不會生成在玩家腳下或阻擋礦車抵達終點

第一次進入第一關

← 第二次進入第一關

技術特點三 存檔與讀檔系統

玩家可在任何關卡按下S鍵保存進度，並在下次啟動遊戲時按下L鍵恢復進度

```
@Override
public void keyReleased(KeyEvent e) {
    int code = e.getKeyCode();

    if (code == KeyEvent.VK_W) { upPressed = false; }
    if (code == KeyEvent.VK_A) { leftPressed = false; }
    if (code == KeyEvent.VK_D) { rightPressed = false; }

    // ★ 放開 S 鍵時同時解除「往下」與「存檔」狀態
    if (code == KeyEvent.VK_S) {
        downPressed = false;
        savePressed = false;
    }

    if (code == KeyEvent.VK_SPACE) { spacePressed = false; }
    if (code == KeyEvent.VK_ENTER) { enterPressed = false; }
    if (code == KeyEvent.VK_R) { rPressed = false; }

    // ★ 新增 L 鍵釋放
    if (code == KeyEvent.VK_L) { loadPressed = false; }
}
```

```
@Override
public void keyPressed(KeyEvent e) {
    int code = e.getKeyCode();

    if (code == KeyEvent.VK_W) { upPressed = true; }
    if (code == KeyEvent.VK_A) { leftPressed = true; }
    if (code == KeyEvent.VK_D) { rightPressed = true; }

    // ★ S 鍵會同時觸發「往下」與「存檔」
    if (code == KeyEvent.VK_S) {
        downPressed = true;
        savePressed = true;
    }

    if (code == KeyEvent.VK_SPACE) { spacePressed = true; }
    if (code == KeyEvent.VK_ENTER) { enterPressed = true; }
    if (code == KeyEvent.VK_R) { rPressed = true; }

    // ★ 新增 L 鍵讀檔
    if (code == KeyEvent.VK_L) { loadPressed = true; }
}
```

The background is a light gray color decorated with various hand-drawn blue doodles. These include several overlapping circles and loops at the top, a series of vertical lines on the right side, a wavy line at the bottom center, and several checkmarks at the bottom right. The main text is centered and has a white drop shadow.

Thank you very much!
